

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for contents of text-input area

Checker Input

Show ☒ source ☐ outline ☐ image report

Options...

Check by text input ☐ css

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="utf-8">
  <title> Form and Display Data </title>
  <link rel="stylesheet" href="css/style.css">
</head>
<body>
  <div class="style_form">
    <h1 id="changeheading"> FORM </h1>
    <form>
      <!-- this part is for the submit the form -->
      <div id="forminputs">
        <!-- inputs and labels for the first and
last name -->
```

Check

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

Message Filtering

Document checking completed. No errors or warnings to show.
